

CarryOutMo.com

Let diners know you're open for carry-out, curbside, delivery

MRA has launched a website for restaurants to promote the dining options still being offered during the COVID-19 pandemic when restaurant dining rooms in Missouri have been closed.

Simply go to CarryOutMo.com and select the "Add Your Listing" tab in the upper right.

Customers can access a great deal of information about your restaurant. This includes whether you offer takeout, curbside pick-up, and / or delivery. It also includes your telephone number, cuisine, website address, special instructions, and more.

MRA will promote the website to keep consumers connected to their favorite eateries and encourage diners to support you during this difficult time.
